SSV / COMPANY PROFILE

ABOUT SSV

More Than Freight. A Commitment.

SSV Freight Services (Pty) Ltd is a South African customs clearing and freight forwarding company established in 2026 with a clear purpose: to combine more than 15 years of hands-on industry experience with a modern, personal and service-driven approach to logistics.

Although SSV is a newly established company, its foundation is not new. The business is built on extensive practical experience in customs clearing and forwarding, established industry relationships and a deep understanding of the detail required to move a shipment from origin to destination.

From the outset, SSV has positioned itself to work with international partners and established brands in customs clearing, freight forwarding and warehousing. This network-based approach allows the company to build competitive freight solutions while maintaining a strong focus on communication, accountability and client service.

SSV / COMPANY PROFILE

OUR FOUNDING STORY

A New Company Built on Established Experience

SSV Freight Services was founded in 2026 with a vision to create a different kind of logistics business - one that respects the value of experience while embracing the technology, connectivity and changing expectations of the modern freight industry.

The company was born from more than 15 years of industry experience and a desire to take that knowledge into a new era. Its founder and director, Deshan Pillay, has worked his way through the customs clearing and forwarding environment from administration through to customs entry processing and shipment management, gaining an understanding of the industry from the ground up.

That journey shaped a simple philosophy: logistics is not just about moving cargo; it is about managing information, protecting timelines, solving problems and giving clients confidence.

The company's early partnerships with international brands and logistics partners provide a platform for customs clearing, forwarding and warehousing support. From this foundation, SSV is building relationships with agents across the globe to develop competitive freight options and dependable international trade solutions.

SSV / COMPANY PROFILE

COMPANY HISTORY & MILESTONES

A Young Company Built on Established Knowledge

2026 - Establishment. SSV Freight Services (Pty) Ltd is established in South Africa as a private company, beginning operations with a focus on customs clearing and freight forwarding.

2026 - Partnerships. SSV develops partnerships and working relationships supporting customs clearing, forwarding and warehousing requirements, establishing the foundation for a broader international logistics network.

Next phase - Growth. SSV's strategy is focused on expanding its global agent network, strengthening international trade capability, developing competitive freight solutions and investing in technology-driven shipment visibility.

The company is young by registration date, but its operational foundation is supported by more than 15 years of industry experience through its director. This distinction is central to the SSV story: a new company carrying established knowledge into a new era.

SSV / COMPANY PROFILE

LEADERSHIP

Deshan Pillay - Founder & Director

Deshan Pillay is the founder and director of SSV Freight Services. With more than 15 years of experience in the customs clearing and forwarding industry, Deshan has developed practical knowledge across multiple functions and stages of the shipment lifecycle.

His career began from humble beginnings and progressed through a broad range of operational responsibilities - from administration and day-to-day support through to customs entry processing and the preparation and framing of customs entries.

Deshan's strength lies in understanding a shipment from start to finish. His approach is centred on accurate information, proactive communication and taking ownership of the details that matter to the client.

His philosophy is straightforward: SSV is not simply selling a product - it is delivering a service. The objective is to become known for remarkable service, accurate information, responsiveness and accountability.

SSV / COMPANY PROFILE

THE SSV PHILOSOPHY

Service Before Shipment

At SSV, we believe the real product is the service surrounding the shipment. Freight may be the movement of cargo, but the client's experience is built around communication, visibility, accuracy and trust.

Our goal is to give clients a clear understanding of where their shipment is, what is happening next and whether anything has changed.

Deshan's vision is to develop live shipment feeds that provide clients with meaningful, up-to-date information throughout the journey - from shipping through to delivery.

The long-term objective is for clients to be able to access shipment information wherever they are. Where a shipment changes, the client should not have to chase for answers; the information should come to them.

SSV / COMPANY PROFILE

EMBRACING THE NEW ERA

Experience + Technology

The freight industry changes every day. New systems, digital platforms, artificial intelligence, automation and increasingly connected supply chains are reshaping how logistics businesses operate.

SSV does not believe that experience and technology need to compete. Traditional logistics knowledge provides the foundation; modern technology provides the opportunity to make the service faster, more transparent and more intelligent.

As AI agents and automation continue to develop, SSV intends to explore practical ways of using these technologies to improve communication, shipment monitoring, information flow, reporting and internal efficiency - while keeping human accountability at the centre of the service.

The principle is simple: preserve what experience has taught us, improve what technology can improve, and never stop learning.

SSV / COMPANY PROFILE

INTERNATIONAL GROWTH VISION

Building a Connected Global Network

SSV's growth strategy is centred on international trade. The company is building relationships with freight agents and logistics partners across the globe with the objective of creating a reliable international network.

Through these relationships, SSV aims to offer clients competitive freight rates, dependable coordination and a consistent service experience across borders.

The long-term vision is to create a logistics network where a client can place their shipment in SSV's hands and receive professional coordination from origin to destination, supported by trusted partners and transparent information.

SSV / COMPANY PROFILE

OUR SERVICES

End-to-End Logistics Solutions

Customs Clearing - Professional customs documentation and clearance coordination, supported by practical industry knowledge.

Freight Forwarding - Shipment planning and coordination across suppliers, carriers, customs, consignees and logistics partners.

Air Freight - Time-sensitive air cargo coordination for urgent and priority shipments.

Sea Freight - Ocean freight solutions for commercial imports, exports, containers and consolidated cargo.

Road Freight - Local and regional road freight coordination and delivery support.

Warehousing - Coordination with warehouse and logistics partners to support storage and cargo handling requirements.

Import & Export Support - Practical support with documentation, cargo handovers and international trade logistics.

OUR REACH

Nationwide & Global

Wherever your cargo needs to go, SSV is positioned to help make the journey happen.

SSV Freight Services services all areas and regions, providing flexible logistics support across South Africa and international destinations.

Through our growing network of freight agents, logistics partners and international relationships, we aim to provide clients with access to competitive freight solutions and dependable service wherever their cargo moves.

SSV / COMPANY PROFILE

WHY CHOOSE SSV

Your Trusted Logistics Partner

- 15+ years of practical industry experience behind the business.
- Personal involvement and direct accountability from leadership.
- End-to-end knowledge across customs clearing, forwarding administration and customs entry processing.
- International partnerships and a growing global agent network.
- Competitive freight solutions and dependable service.
- Modern technology, visibility and automation mindset.
- Clear communication and detailed shipment reporting.
- Long-term relationships rather than simply processing shipments.

SSV / COMPANY PROFILE

OUR APPROACH

Simple. Transparent. Results Driven.

01 - Understand. We take the time to learn about your needs and requirements.

02 - Plan. We design an efficient and cost-effective logistics solution.

03 - Execute. We coordinate the logistics, customs and communication.

04 - Track. We aim to provide timely updates and full visibility.

05 - Deliver. We remain focused on successful cargo movement and client confidence.

SSV / COMPANY PROFILE

INDUSTRIES WE SUPPORT

Solutions for Every Sector

SSV Freight Services proudly supports a wide range of industries and cargo requirements, including:

Agriculture & Fresh Produce • Automotive • Manufacturing • Mining & Resources • Retail & E-Commerce • Pharmaceuticals & Healthcare • Technology & Electronics • Fashion & Textiles • Construction & Building Materials • Food & Beverage • Energy & Chemicals • General Cargo.

SSV / COMPANY PROFILE

OUR COMMITMENT

Service. Integrity. Long-Term Partnerships.

Every shipment represents something important to a client - stock, production, a customer promise, a deadline or an opportunity. We understand that responsibility.

SSV is committed to providing a service that is professional, accessible and accountable. We aim to communicate clearly, provide accurate information and remain solution-focused when challenges arise.

Our ambition is not to become the biggest company simply for the sake of size. It is to become a service provider clients remember for doing things properly, communicating honestly and taking their business seriously.

SSV Freight Services is committed to delivering reliable and efficient logistics solutions, maintaining the highest standards of integrity and compliance, investing in technology and innovation, building lasting client relationships, and supporting sustainable and responsible business practices.
